

APPRENTICESHIP PROGRAM

AT ALBEMARLE WE SERVE PEOPLE AND PLANET IN OUR MISSION TO CREATE A MORE RESILIENT WORLD

At Albemarle we can help you to forge a rewarding career in lithium energy storage and become an essential element in creating a brighter future. Our Lithium Hydroxide Processing Plant at Kemerton near Bunbury is world class and our company is a global leader.

We embrace diversity of experience, age, talent and thought in our apprentices and all our workers. We work hard to create a positive, team-oriented workplace and an inclusive work environment that will inspire and help you to build skills and confidence. Your decision to join our team will be rewarded with help to pursue your career goals and realise your full potential.

This is our culture. This is our commitment.

Program Aim

Albemarle's Apprenticeship Program is designed to:

- Provide quality training and career development opportunities
- Build a sustainable pipeline of diverse, Albemarle-trained talent
- Help develop the right skills and experience for work in a world class lithium operation.

Apprenticeship Program

Albemarle is currently offering apprenticeships in Mechanical Fitting, Electrical and Boilermaking.

We have partnered with Registered Training Provider Southwest Regional TAFE to develop training plans for both on-the-job and off-the-job training across these three fields.

On offer is a structured four year workplace learning program helping apprentices to develop within their chosen field and gain invaluable experience across the lithium processing industry. Apprentices will be supported and guided by Albemarle mentors including trade-specific mentors and area managers.

Our Commitment

- A structured program open to all ages
- Dedicated support from specialist trade mentors
- Structured learning that aligns with off-site study
- Support in completion of study requirements and achieving a full trade with necessary skills
- Regular feedback, coaching and performance reviews
- Endless opportunity to learn, develop and follow your chosen career pathway
- A workplace embracing collaboration and curiosity
- Competitive salaries and benefits.
